

A. Contact Information			
1. Company name:		2. Website:	
3. Primary contact:		4. E-mail:	
5. Mailing address:			6. Tel #:
B. Project Overview			
7. Project type:	Engine replacement	Engine conversion	Idle reduction
8. Project description:			
9. Infrastructure. Does your project involve charging equipment costs?		Yes	No
10. Description of primary routes or areas of operation:			
11. Operation in region: King County: %, Kitsap County: %, Pierce County: %, Snohomish County: % Please indicate route or areas of operation on Page 2.			
12. Attrition: When would you rebuild or replace the engines on this locomotive without any grant funds? _____ years			
13. Project period: 13a. Start date:		13b. Completion Date:	
14. Project cost: 14a. Vehicle equipment cost:		14b. Vehicle related labor cost:	
14c. Charging equipment costs:		14d. Charging related labor cost:	
14e. Total project cost:			
15. Promotion of new technology: Will this project help promote the adoption of new technology? If so, how?			
C. Project Specifications			
16. Locomotive ID:		17. Locomotive Model:	
Existing Engine		Proposed Engine	
18. Engine tier:	19. No. of engines:	28. Engine tier:	29. No. of engines:
20. Mfr:	21. Model:	30. Mfr:	31. Model:
22. Year:	23. Size (hp):	32. Year:	33. Size (hp):
24. Fuel type:		34. Fuel type:	
25. Annual fuel used per engine (gallons):		35. Annual fuel used per engine (gallons):	
26. Liters displaced per cylinder:		36. Liters displaced per cylinder:	
27. Annual operation per engine (hours):		37. Annual operation per engine (hours):	

**D. Impacted Communities**

There is a direct correlation between racial and social equity and environmental health. Addressing equity is critical to the Agency's mission to protect public health and reduce our region's contribution to climate change. We will prioritize projects with large emission reductions that also positively impact local communities with higher environmental health and racial equity barriers. Questions 39-42 are intended to explore how your project might benefit these communities.

38. **Communities:** 38a. Describe the people or communities that will benefit from or be affected by this project such as: communities of black, indigenous, or people of color; employees; customers; residential areas; schools, or hospitals.

38b. Determine the Department of Health's environmental health disparity ranking for your project area by going to <https://fortress.wa.gov/doh/wtn/wtnibl/>. Select 'Environmental Health Disparities' in the top left to view the map. Click on the exact location of project and rank will appear in left-hand column adjacent to 'Environmental Health Disparities V 1.1' Rank: \_\_\_\_\_

39. **Unintended Impacts.** What are potential unintended impacts from this project on communities identified in question 14a? (e.g. road congestion due to construction or workforce reductions due to autonomous vehicles). How might additional outreach and education mitigate these impacts?

**40. Community Outreach.**

40a. Are you willing to promote this project and participate in outreach activities?	Yes	No
40b. Are you okay with the Agency promoting this project?	Yes	No

41. **Community Relationships.** Describe any past and present community engagement activities undertaken by your company (e.g., environmental sustainability efforts, volunteering activities, community outreach/events, social justice activities, partnerships, coalitions etc.)

**E. Authorized Signature**

I certify that the information I am providing is true and accurate to the best of my knowledge.
