DETERMINATION OF NONSIGNIFICANCE

Description of Proposal

Canyon Creek Cabinet Company (CCCC) will install a new line that consists of two automatic spray booths, two automatic sanding machines, two manual sanding tables, two automatic part cleaners, two vertical ovens and two horizontal ovens and one part flipper. To support the new system, two small (<2 MMBtu per hour heat input each) natural gas-fired boilers will be installed to provide heat for the four ovens in the system.

The proposed project will also require a baghouse to control particulate matter emissions from the sanding and parts cleaner equipment. For the proposed flat line system, a 45,000 cfm Superior Filter Model #P14-494-12 with 7,410 square feet of filter media resulting in a 6.07:1 air-to- cloth ratio is proposed.

No increase in permitted emissions or changes in coating constituents is proposed. The new line will be as efficient as the current line.

Lead Agency

Puget Sound Clean Air Agency

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 30 days from the signature date below. Comments must be submitted by July 1, 2022.

We have identified and adopted this document as being appropriate for this proposal after independent review. The document meets our environmental review needs for the current proposal and will accompany the proposal to the decision-maker.
