

PUBLIC NOTICE
PUGET SOUND CLEAN AIR AGENCY
Proposed Order of Approval No. 12309
Bellmont Cabinet Company
13610 52nd St E STE 300, Sumner, WA 98380

The Puget Sound Clean Air Agency is providing public notice for a proposed permit for Belmont Cabinet Company to implement a facility-wide emission limit of volatile organic compound (VOC) emissions to 95 tons per year. This limit would reduce the facility's allowable emissions below the threshold at which an air operating permit is required. Belmont has installed a regenerative thermal oxidizer, which reduces the facility's VOC emissions.

PRELIMINARY DETERMINATION

The Agency has completed a review of application no. 12309. Based on this review, the Agency has made a preliminary determination that the proposal meets all the requirements of Regulations I, II, and III, and draft Order No. 12309 should be approved.

PUBLIC COMMENT

The proposed Order of Approval (along with the information considered in making this preliminary determination) is available from the Agency's website at www.pscleanair.gov. These documents are also on file and available for inspection at the Agency's office located at 1904 Third Avenue, Suite 105, Seattle, Washington, telephone (206) 343-8800. Written comments with respect to the proposed Order must be mailed to Carl Slimp, Engineer, at Puget Sound Clean Air Agency, 1904 Third Avenue, Suite 105, Seattle, Washington 98101, faxed to the Engineering Manager at (206) 343-7522, or e-mailed to carls@pscleanair.gov within 30 days of the publication date of this notice. Any person or entity may request a public hearing within the comment period provided that any such request shall state the person's or entity's interest in filing it and why a hearing is warranted.

All comments received during the comment period will become part of the public record. Once the Agency has reviewed and responded to comments from the public, the proposed Order of Approval will, if necessary, be revised and either denied or issued in final form.

This notice will run in the following papers on July 10, 2023:
