Steve:  
That was an oversight on my part I originally had the size in the document but it changed from the manufacturer and I never got the size back in.

The building is 25 feet by 25 feet by 27 feet high.

This total sf area falls into the engineering report.

Thanks  
Jerry

Subject: NOC 10455 Application Documents

Jerry,

I looked at the original NOC supplemental document on Claude's desk and it is identical to the one I was looking at electronically. There were no building dimensions in the document.

Thanks,

Steve
